ABOUT ME

Independent developer with a passion for technology. After several years as a freelancer, developing custom web and management solutions, I'm now looking for an opportunity to grow professionally and contribute steadily to an innovative team. I currently live in Lugano.

Emanuele Giordano

FULL-STACK SOFTWARE DEVELOPER

PROFESSIONAL EXPERIENCE

2025 - 2025 | I.S.I.S.S. ETTORE MAJORANA

External Lecturer

Teaching activities as part of the Big Data and Data Analysis training program, including the design and implementation of training modules, practical exercises, and assessment tests.

The content covered included Data Lake and Data Warehouse architectures, data analysis platforms, and Big Data applications in business contexts, for a total of 160 hours.

2024 - 2025 | ALCHIARDILUNA

Full-Stack Developer

Platform developed in React with a Django backend, designed to centralize calls, emails, WhatsApp, and other communication channels in a single interface.

It offers call transcription and listening features, shared calendars, leave management, support tickets, and integration with external CRMs to view history, contracts, and customer requests in real time.

The goal is to simplify staff work and improve the quality of customer service.

2024 - 2025 | OTTATO LISA

Full-Stack Developer

Development of a custom CMS with Laravel for the lapietraspaccata.it website, designed to allow the client to independently create, edit, and customize web pages.

The project included dynamic content management, an intuitive administrative interface, and SEO optimization to improve online visibility.

2024 - 2025 | HIGHTECH SRL

Full-Stack Developer

A one-year collaboration focused on developing a management system for industrial product sales and supply chain management, based on a PHP framework.

I worked on both the back-end and front-end, overseeing framework customization, management module integration, and process automation to improve operational efficiency and system scalability.

2022 - 2025 | OMNIA BANK OF SERVICES IT Consultant / Developer

During a three-year collaboration, I was responsible for maintaining and optimizing the CRM in both production and testing environments, liaising with the original software vendor to resolve bugs, improve performance, and develop new custom modules.

I also developed external support software, including scrapers, automation tools, and WhatsApp integrations, to optimize workflows and corporate communications.

2020 - 2022 | ALCHIARDILUNA

Technical Director – IT/HT

I served as IT/HT Technical Director, managing networks, firewalls, and IT infrastructure, as well as software development and the implementation of automation and home automation solutions. I designed and coordinated technology systems to support business operations and events.

ABOUT ME

Independent developer with a passion for technology. After several years as a freelancer, developing custom web and management solutions, I'm now looking for an opportunity to grow professionally and contribute steadily to an innovative team. I currently live in Lugano.

ISTRUZIONE E FORMAZIONE

2017 - 2021 | UNIVERSITÀ DEGLI STUDI DI NAPOLI FEDERICO II
Bachelor's Degree in Computer Science

2012 - 2017 | I.S.I.S GUIDO TASSINARI
Diploma in Computer Science

INTERPERSONAL AND ORGANIZATIONAL SKILLS

I consider myself a collaborative and communicative person. I enjoy working in teams, sharing ideas, and engaging in discussions to find practical solutions. I'm accustomed to managing relationships with clients and colleagues in a clear and respectful manner, always maintaining a constructive and goal-oriented approach. My work as a VAT-registered Developer has taught me the importance of time management.

TECHNICAL SKILLS AND COMPETENCES

I have solid experience in software development, both backend and frontend. I'm comfortable with different languages and frameworks like JavaScript, Python, PHP, React, Django, and Laravel, as well as familiar with data management environments like MongoDB and MySQL. I enjoy designing scalable and meticulously crafted solutions, automating processes, and integrating different systems to make work more efficient.
